STRENGTHS

-  **Coding Expert**
Proficient in HTML, CSS, JS
-  **Problem Solver**
Innovative approach to challenges
-  **Team Player**
Excellent collaboration skills

SKILLS

HTML CSS JavaScript

Responsive Design Python

Django GIT React

Node.js SQL MongoDB

Netlify

Performance Optimization

ACHIEVEMENTS

-  **Website Performance**
Improved by 35% at Tech I.S.
-  **Page Load Time**
Reduced by 30% at Tech I.S.

INDUSTRY EXPERTISE

Front-end development

Backend, DevOps

SUMMARY

Passionate Full Stack Developer with a knack for creating intuitive and high-performing web applications. I excel at motivating, mentoring & developing teams of less experienced developers. Ready to bring coding expertise and innovative problem-solving skills to any project and solve the challenges of modern web development with creativity and precision.

EXPERIENCE

Full Stack Developer

TECH I.S. 09/2021 - Present Bangalore, India

Engineering Coordinator

- Built 10+ Application Programming Interface (APIs) which is indispensable when comes to working on different software.
- Implemented 20+ front-end website architecture which includes designing interactive, all-device responsive web pages.
- Established 10+ current developments in the world of web development of 2 core areas of frontend and backend.
- Learned 20+ emerging concepts in full stack, and managing all the activities of project members regarding development.
- The application created by Redux & React has Frontend and 2+ Django tools have a Backend.
- Provide adequate training to 30+ staff members and 10+ junior web developers in internal web functions, including steps on how to make minor updates/changes independently.

E-Commerce Manager

Moki Tiko LLC 10/2020 - 09/2021 Bangalore, India

Worked on Amazon FBA Store.

- Negotiated prices with product distributors to maintain profit margin up to 30%.
- Assessed market trends and gathered information to make sure my product would sell.
- Tracked inventory shipments of new products.
- Improved merchandising and advertising strategies.
- Prepared spreadsheets detailing item information and created specific keywords to improve conversion rate up to 25%.
- Developed and improved relationships with product suppliers.

Customer Service Executive

Wellness Forever 06/2016 - 06/2017 Bangalore, India

Assisted in all customer support operations.

- Provided exceptional customer service by assisting customers with inquiries, product selection, and resolving issues in a timely and professional manner.
- Demonstrated strong communication skills by communicating with customers, colleagues, and management to ensure smooth operations.
- Maintained a clean and organized store environment, including stocking shelves, arranging displays, and ensuring product availability.

EDUCATION

Master's Of Computer Applications (MCA)

Chandigarh University 01/2022 - 03/2024 Chandigarh, IND

Bachelor's Of Computer Applications (BCA)

T John College 07/2017 - 10/2020 Bangalore,IND

SOFT SKILLS

PROJECTS

Customer Management System (CMS)

📅 05/2022 - 09/2022 📍 Bangalore India

TECH I.S.

Technologies Used: React, Django

- **Developed and Deployed:** Engineered a comprehensive Customer Management System from scratch, leveraging React for the front end and Django for the back end.
- **User Interface Design:** Designed and implemented a user-friendly and responsive UI, ensuring seamless interaction and enhanced user experience.
- **API Development:** Created RESTful APIs using Django, enabling efficient communication between the front-end and back-end systems.
- **Database Management:** Utilized Django's ORM to manage and interact with the database, ensuring data integrity and security.
- **State Management:** Employed Redux for state management, ensuring consistent and predictable application behavior.
- **Component-Based Architecture:** Developed reusable and modular components in React, promoting code reusability and maintainability.
- **Collaboration:** Worked closely with cross-functional teams, including designers, QA engineers, and product managers, to deliver a high-quality product within the project timeline.

Learning Management System (LMS)

📅 02/2023 - 10/2023 📍 Bangalore India

TECH I.S.

Technologies Used: React, Django

- **Comprehensive System Design:** Architected a robust Learning Management System (LMS) to facilitate online education, utilizing React for dynamic front-end experiences and Django for secure back-end processes.
- **Course Creation and Management:** Developed features for course creation, enrollment, and management, enabling instructors to efficiently upload and organize course materials.
- **Student Progress Tracking:** Implemented functionality for tracking student progress, providing detailed analytics and reporting to instructors for monitoring performance and engagement.
- **Interactive Learning Modules:** Integrated multimedia content such as videos, PDFs, and interactive quizzes to enhance the learning experience and cater to various learning styles.
- **Real-Time Communication:** Developed real-time chat and messaging features to foster communication between students and instructors, promoting an interactive learning environment.
- **Assignment Submissions:** Created a system for assignment submissions and grading, allowing students to submit their work digitally and receive timely feedback from instructors.

Human Resource Management (HRM)

📅 03/2022 - 11/2022 📍 Bangalore India

TECH I.S.

Technologies Used: React, Django

- **End-to-End HR Solution:** Developed a comprehensive Human Resource Management System (HRMS) from scratch, utilizing React for the front-end interface and Django for the back-end logic.
- **Employee Information Management:** Created modules for managing employee information, including personal details, job roles, departments, and contact information.
- **Recruitment and Onboarding:** Implemented features for recruitment and onboarding, allowing HR to post job openings, track applications, and streamline the onboarding process for new hires.
- **Leave Management:** Designed a leave management system enabling employees to request leave, view leave balances, and for managers to approve or reject leave requests.
- **Payroll Processing:** Developed a payroll module to automate salary calculations, deductions, and disbursements, ensuring accurate and timely payments.
- **Performance Reviews:** Implemented performance review features, enabling managers to conduct employee evaluations, set goals, and track progress.
